

Standardized Ginkgo biloba protects against various aging processes. Nano processed is even better absorbed and more effective.

There is evidence from experimental studies that the standardized extract of Ginkgo biloba protects brain tissue against damage and that the terpene lactones such as ginkgolide B and bilobalide are the most effective constituents.

Alzheimer's Disease

Ahlemeyer B, Kriegstein J. "Pharmacological Studies Supporting the Therapeutic use of Ginkgo biloba extract for Alzheimer's Disease". **Pharmacopsychiatry**. 2003; 36 Suppl. 1:S8-S14.

Kidney from diabetic and hypoxic damage
